Blockchain For Impact

Blockchain-enabled social enterprises strive for increased financial access and improved financial service to serve the unbanked and under-banked population in Southeast Asia and Sub-Saharan Africa.

BitPesa

Kenya

BitPesa leverages blockchain settlement to lower the cost and increase the speed of cross-border payment and business transactions in Sub-Saharan Africa.

TraXion

Philippines

Traxion aims to bring financial inclusion to 89 million unbanked Filipinos through the 'bank-in-a-wallet' solution (savings, payments & remittances) backed by its blockchain-driven environment.

Kiva Protocol

Sierra Leone

Kiva protocol is a collaborative initiative set by Kiva, UN and the Sierra Leone government to address the credit barrier of accessing financial services for its unbanked population.

DApact

Cambodia

Dapact aims to slash the costs of microfinance to spur financial access in low-income communities. It uses an Ethereum-based lending protocol that supports loan origination and financing.

Fintech Frontier

Mobile Payment

Company	Country	Payment System	Operation Model
---------	---------	----------------	-----------------

According to the European Payments Council (EPC), mobile payment solutions provide a direct improvement to the operations efficiency, ultimately resulting in cost savings and in an increase in business volume. Especially for developing countries, mobile payment solutions have been deployed as a tool of extending financial services to the community, who has no bank account.

Safaricom	Kenya	M-Pesa	SMS/USSD-based Transactional Payments
M-Pesa was one of the first systems to embrace payment by cell phone in the developing countries. It largely reduces the cost for transactions and improves the security and convenience.			

JR East Rail Network	Japan	Osaifu-Keitai	Contactless Near Field Communication
Osaifu-Keitai services include electronic money, identity card, loyalty card, fare collection of public transits (including railways, buses, and airplanes), or credit card.			

Mybucks	Luxemburg	Mybucks	A Virtual Bank based on AI Technology
MyBucks is the leading FinTech company in Sub-Saharan Africa. It focuses on banking the unbanked across emerging economies, providing personalized banking, insurance and lending products and services to a 1.5 million-strong client.			

iPay	Bangladesh	iPay	Bank-led Model
iPay is the first online payment platform in Bangladesh. iPay connected with all 57 banks of Bangladesh. Customer will be able to exchange money with other iPay members and make payments for their purchases, utilities and other services in a cashless form.			

Upcoming Events
