Message from President

Xiaochen Zhang

President, FinTech4Good

Dear Friends and Family of FinTech4Good:

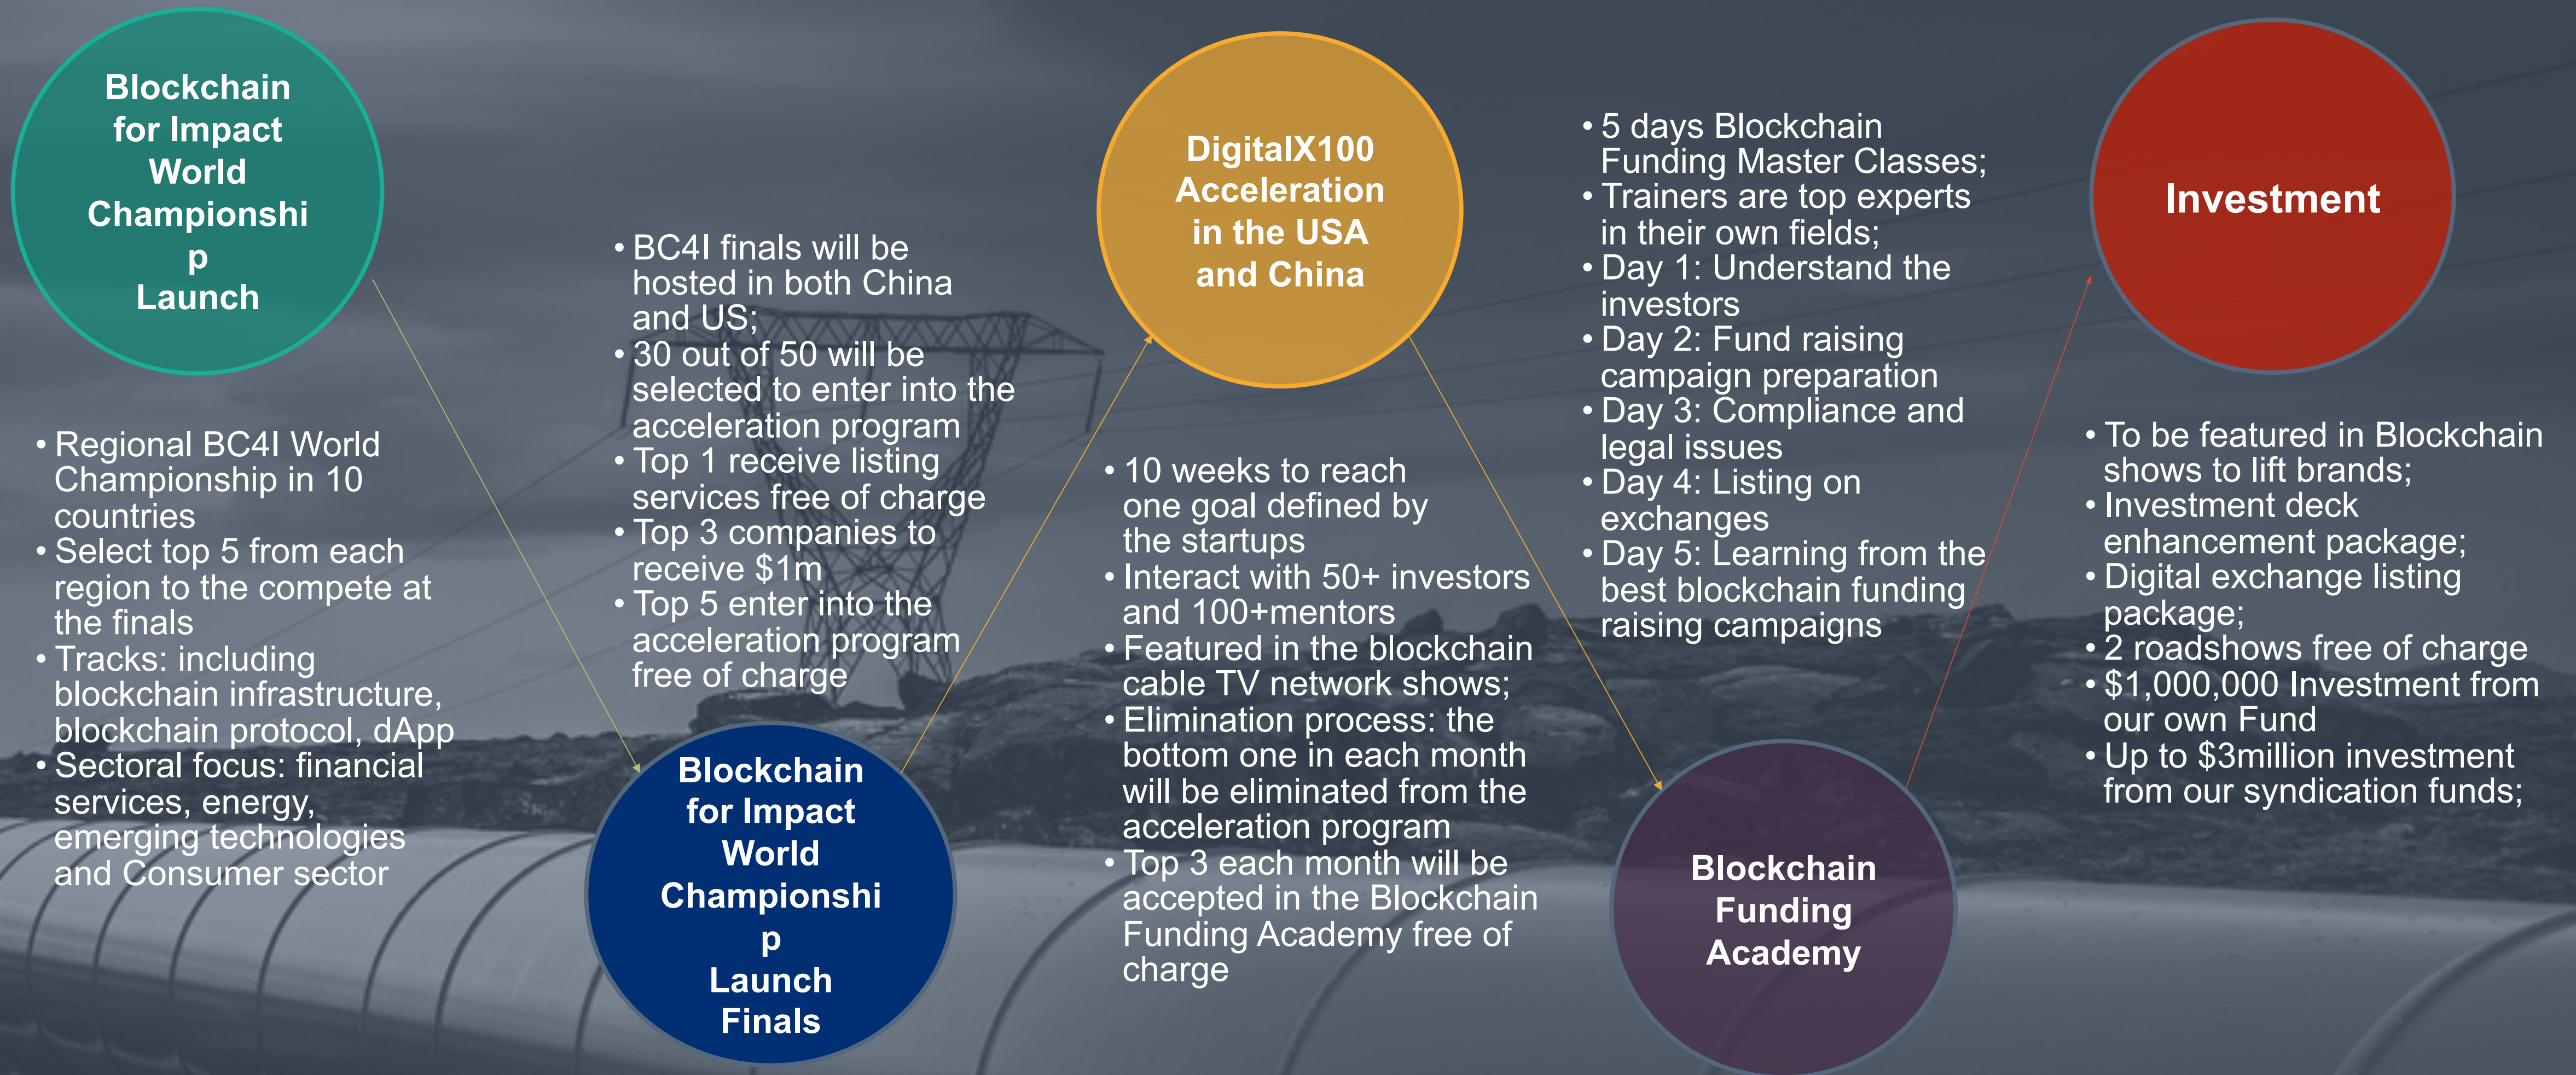

I have been traveling globally in the past few months. From Silicon Valley to Europe to Asia to Africa to LAC... I have witnessed the rising of blockchain technology in different sectors across the globe. Especially, at watershed Global Forum convened by the OECD on 03-05 September 2018 in Paris, France, 1,000 people from 70 countries converged to have the first serious global conversation about Blockchain and its potential, risks and opportunities. I joined the discussion on the digital assets and mainstream finance panel, shared the keypoints of our ***Central Bank Digital Currency White Paper***, and invited the members of the European Commission in charge of the digital economy to be panelists of the entire white paper program proposed by ***the Central Bank Blockchain Advisory Committee***.

In the next few months, FinTech4Good will launch the ***Blockchain for Impact World Championship***. We will select the top 30 Blockchain startups in 10+ countries for our ***DigitalX100 Acceleration Program***. In the 10-week program, we will have 100+ leading Blockchain investors who will judge for the weekly online pitch competitions; 500+ mentors who will provide office hours for our startups and many industrial leaders who will select Blockchain solutions from our program to transform their existing business models. The top 3 in each month will be accepted in the 5-day ***Blockchain Funding Academy***. We truly believe that we will be able to select the best of the best Blockchain innovations. With our acceleration program, they will be able to realize their true potential.

Xiaochen Zhang,
President,

FinTech4Good, Blockchain Frontier Group

Blockchain Practitioner Conference China 2018

When

Wed, Sept 18 9:00 AM

Where

1 Pubei Rd, 1 Pubei Rd, Xuhui
Qu, Shanghai Shi, China

AmCham China 2018 Technology and Innovation Summit

When

Thu, Sept 20 8:30 AM – 9:00 PM

Where

Beijing, China

Showcasing the cutting-edge technologies and innovative business models of American companies in China; Sharing cross-sector and cross-functional best practices of adjusting to the digital transformation; Exploring solutions for the most common roadblocks of companies adopting new technologies in business; Facilitating constructive communication between multinational corporate executives with like-minded Chinese stakeholders; Navigating through the time of uncertainty in US-China relations and the regulatory impact on tech-related business.

Industrial Innovation Ecological Cooperation Fourm

When

Thus, Sept 20 7:00 PM

Where

Beijing, China

This conference will invite the pioneer in different industries discussing the current technology development situation and how traditional industries construct and participate in the new ecological development.

Blockchain Impact Summit

When

Fir, Sept 28 9:00 AM – 6:00 PM

Where

Toronto, ON, Canada

Blockchain is often considered to be one of the most significant tech findings of the 21st century. This event will explore recent developments, potential impacts and opportunities of the blockchain.

The Summit will bring together the key players working in diverse fields to discuss the future trends of blockchain technology and showcase companies who are using this technology to disrupt industries and continuously innovate. The event will be a platform for blockchain industry leaders to meet up and exchange ideas. Attendees will gain a wealth of insights and information about the state of the blockchain technology and the token economy.

2nd Annual Innovatin Ignition Competition

When

Wed, Oct 24 8:30 AM

Where

**2920 Broadway, 2920 Boardway, New
York, NY 10027, usa**

Host by: Blockchain and Telehealth Academic Journals

Blockchain Impact Summit

When

Wed, Oct 24 9:00 AM

Where

Shanghai World Expo Exhibition and Conve,
Pudong Xinqu, China

As a new emerging technology, blockchain is undoubtedly the most eye-catching topic at present. Its decentralized, tamper-proof and distributed storing technologies will revolutionize the traditional internet and the centralized operation pattern. As several industries and fields have already begun to study and explore the application of blockchain technology, a technological revolution is taking place in silence.

If you still think you are a vehicle expert who just do not know much about blockchain technology, we can assure you that in five years you will be phased out of the automotive electronics industry.

FINEXT CONFERENCE

When

Oct 25, 9:00 AM - Oct 26, 6:00 PM

Where

Las Vegas, Las Vegas, NV, USA

FiNext Awards & Conference provides a platform for the global FinTech sector, allowing start-ups, SMEs, incumbent tech providers, investors, financial institutions and other stakeholders to connect and interact under one roof. In addition to the conference, FiNext Tech Awards acknowledge the efforts of FinTech thought leaders, torchbearers of the industry.

Blockchain Life 2018

Nov 06, 2:00 PM – Nov 08 8:00 PM

Where

Saint Peterburg, St Petersburg, Russia

The two-day forum/conference at the Europe's leading venue ExpoForum gathers more than 5,000 participants from more than 70 countries. Crypto traders, the owners of ICO projects, leading private investors and crypto funds, entrepreneurs and blockchain experts, developers on the blockchain, the owners and representatives of global exchanges, and miners, - the event brings together industry professionals and those who are just starting their way in the crypto industry.

Within the conference part, the leading experts of the Asian, US, European and CIS markets prepared their speeches. In the report, each speaker provides actual case studies on earnings or experience in building a project in the most promising sector of today.

Middle East Innovation In Technology Conference

When

Nov 07, 9:00 AM
– Nov 08 6:00 PM

Where

United Arab Emirates, Dubai

Advancing the technology in Middle East

In the era of accelerated technological revolution in the Middle East, there can be seen a huge rising interest of government towards the adoption and implementation of immersive & innovative technologies. With the recent developments like Emirates Data Centre, National Innovation Strategy, and Dubai Blockchain Strategy, Middle Eastern Governments has proved that progress is not only characterised by new innovations, but also by their application and diffusion.

With this in mind, we are hosting the Middle East Innovation in Technology Summit, which will bring together government officials, world-class experts, technology professionals, and international academicians to understand the rapid changing landscape of the technologies for a clear plan of action to become the global leader and gain higher altitudes in the horizon.

Notes For Past Events

OECD Blockchain Policy Forum I The Dialogue of Continents

Sep.04, 2018, Paris, France

The Reinventing Bretton Woods Committee, in collaboration with the Hamburg Institute of International Economics, held the The Dialogue of Continents Forum: Drifts or Connectivity on the 03-05 September 2018 in Paris.

At a watershed Global Forum convened by the OECD, 1,000 people from 70 countries converged to have the first serious global conversation about Blockchain and its potential, risks and opportunities. A series of high quality panels covered blockchain and the new economy, cybersecurity, taxation, self sovereign identity, fight against financial crimes, privacy and building a new global policy environment for digital financial assets.

Xiaochen joined the panel discussion “Can and Should Crypto Assets Enter the Mainstream of Global Finance” and talked about the possible ways for crypto assets to enter the mainstream of global finance.
