Blockchain For Impact

National blockchain-based credit bureau in Sierra Leone

Helped unbanked individuals to solve identification problem. The initiative is the result of a collaboration between technology non-profit Kiva, the U.N. Capital Development Fund (UNCDF), and the U.N. Development Programme (UNDP).

Humaniq

Introduced a facial and voice identification system as a method of authorization for people with no paper IDs using Blockchain.

London

Hong Kong

Bitspark

Lowered the traditional transaction fee by 10 times. Bypassed existing banking networks and traditional remittance systems using Blockchain.

Mexico

Consuelo

A blockchain-based microinsurance service backed by Mexican mobile payments company Saldo.mx, enabled customers to pay small amounts for health and life insurance.

Blockchain Technology has the potential to eradicate poverty in third-world countries for its traits of transparency, trustless and irreversibility. According to Christina Comben, blockchain can address current issues in financial inclusion, microtransactions, micro-lending and connectivity.

Fintech Frontier

Financial Services

Company	Country	Fintech Solution	Operation Model
---------	---------	------------------	-----------------

Artificial intelligence and machine learning solutions have enabled financial institutions and other service providers to better understand and predict the customers with informed and powerful tools.

Redtail	United States	Redtail Technology	AI-backed CRM
The machine learning feature of Redtail uses transfer learning to democratize AI access in customer relationship management and create a process for financial advisory firms to identify and predict client needs via data from emails, notes and text messages.			

HDFC Securities	India	Omni-channel marketingt	AI-based Chat-bot
HDFC Securities partners with Niki.ai to provide real-time omnichannel marketing tools via a chatbot, Eva, to connect the bank with customers. It is India's first and largest banking chatbot.			

NICE Actimize	United States	X-Sight	AI/Machine Learning embedded AML
NICE Actimize has developed a machine-learning based platform, X-Sight, that provides industry's first financial crime risk management solution that enables detection, decision-making and self-learning to meet needs of service operations.			

Morgan Stanley	United States	Next-Best Action	AI-backed financial advisory
The 'Next Best Action' is a system developed by Morgan Stanley to deploy machine learning and predictive analytics to synthesize and comb through research reports and client database to draw insights on the market trends.
